

## **TANSEEQ MATCH 2021**

### **Congratulations, you have Matched.**

The Department of Health is pleased to announce the successful completion of the 11<sup>th</sup> cycle of TANSEEQ Program for interns, residents and fellows for the year 2021.

The past year has created many challenges and caused unprecedented disruption to the medical education system around the globe. Despite the challenges posed by the pandemic, The Department of Health continues in its mission and commitment to nourish our learners and trainees and support them in their journey in career development.

In this year, TANSEEQ received the highest number of applicants since the program started in 2010. The process of applicants' selection involved arrays of qualification assessment, skill tests and interviews. Applicants who were short listed, went onward to be ranked through an international benched marked digital algorithmic matching system to placed them to various training positions.

Please find below the list of matched applicants to the various programs and facilities across Abu Dhabi for the TANSEEQ cycle 2021.

Congratulations to all, and we wish you success in all your future professional and academic endeavors
